

Abbreviation	Title
EMC	Electro-Maganetic Compatibility Directive
GAD	Gas Appliances Directive
LVD	Low Voltage Directive
MD	Safety of Machinery Directive
PED	Pressure Equipment Directive
RCD	Recreational Craft Directive

Notes:

1. A CE mark is required if there are any ticks shown in the table.
2. If CE marking is not required, source components that comply with the identified standards.
3. If neither CE marking nor standards are listed, there are no compliance requirements.
4. Where components are fabricated for a vessel, the builder shall not require a CE mark but is responsible for the compliance of that item. (e.g. An integral fuel tank or glued window panes).
5. It is recommended that builders refer to CE marking and/or standards on all purchase orders.

Component	CE Mark required						Applicable standard if no CE marking is required
